Table of Contents

Introduction V
by M. Pastorino and A. Randazzo

1. **On the Role and the Exploitation of the Information in Inverse Scattering Problems for Microwave Imaging. Theory, Numerical Tools, and Applications** 1
by N. Anselmi, G. Oliveri, L. Poli, A. Polo, P. Rocca, M. Salucci, A. Massa

2. **Some Results about the Information Content, the Degrees of Freedom and the Resolution in Linear Inverse Scattering** 17
by A. Brancaccio, G. Leone, M. A. Maisto, R. Pierri, R. Solimene

3. **Microwave Tomography for Unmanned Aerial Vehicle Radar Imaging: State of the Art and Perspectives** 35
by I. Catapano, G. Gennarelli, G. Esposito, C. Noviello, G. Ludeno, F. Soldovieri

4. **The Shifting Zoom as the Way to Make Possible the Application of Inverse Scattering Algorithms to GPR Data** 51
by R. Persico, I. Catapano, G. Gennarelli, G. Ludeno, F. Soldovieri

5. **Through-the-Wall Microwave Imaging: Forward Modeling and Hybrid Inverse-Scattering Procedures**..... 65
by A. Fedeli, M. Pastorino, C. Ponti, A. Randazzo, G. Schettini

6. **Millimeter Wave Imaging Profilometry for Plasma Diagnostics: Analysis, Design and Preliminary Assessment** 85
by L. Di Donato, S. C. Pavone, and G. Sorbello

7. **Microwave-based Devices for the Quality Assessment of the Industrial Manufacturing of Carasau Bread**..... 103
by M. B. Lodi, N. Curreli, G. Muntoni, C. Macciò, A. Fanti, G. Mazzarella

8. **Full Phaseless Approach to Inverse Scattering** 119
by S. Costanzo, G. Lopez, G. Di Massa

9. Intracranial Hemorrhage Imaging-based Follow-up: Experimental Assessment Using a Microwave Imaging Scanner 145
by D. O. Rodriguez-Duarte, C. Origlia, J. A. Tobon Vasquez, R. Scapaticci, G. Turvani, M. R. Casu, L. Crocco, F. Vipiana

10. Microwave Imaging in Non-Conventional Lebesgue Spaces: Overview and Application to Brain Stroke Imaging 163
by A. Fedeli, V. Schenone, M. Pastorino, A. Randazzo, C. Estatico, I. Bisio, F. Lavagetto, A. Sciarrone
